

Prices as from March 2024

Code	Course Name	Price (ex. VAT)
PAA	Analogue and digital signals	£90
PAB	Signal impairments	£70
PAC	Transmission fundamentals	£90
PAD	Modulation and multiplexing	£90
PAE	Data communication principles	£110
PAG	Telecommunications networks	£110
PAF	Media encoding	£90
TFA	Telephony and data services	£110
WAA	Wireless communications	£80
TCC	Telecoms infrastructure and administration	£70
TCE	Introduction to telecoms services	£90
TCG	Telecommunications systems security	£120
FOA	Telecommunications access networks	£110
FPB	Telecoms testing and fault-finding	£120
OMA	Optical fibre principles	£110
FAB	Optical access networks	£155
TDD	Next generation access networks	£120
DMB	DSL systems	£210
TCF	Hybrid fibre coax cable systems	£100
VAA	Introduction to telephony	£100
VAB	Voice over IP	£145
MED	VoIP systems	£130
EBB	Structured cabling	£90
EDA	Ethernet fundamentals	£110
EDC	Ethernet networks	£120
EDE	Network testing and fault-finding	£120
EBD	Advanced Ethernet networks	£110
NSA	Network services	£100
NSB	Domain and cloud services	£120
TQA	Introduction to wide area networks	£120
TQF	Internet protocols	£100
TQG	IP networks	£80
NHA	Next generation networks	£145
TQH	Interior IP routing	£115
TQJ	Exterior IP routing	£115
TAH	Advanced IP networks	£130
MJA	Introduction to mobile systems	£90
MJB	Mobile radio communications	£120
MJC	4G and 5G radio access networks	£135
MJD	Advanced mobile systems	£135
SYA	Synchronous transmission principles	£90
SYB	SDH principles	£165
SYC	Optical line systems	£100
SYD	Optical networks	£165
